

Eu Jun Bin

Solutions Architect & Payment Systems Specialist

Technically sophisticated Solutions Architect and Product Manager with specialized expertise in the Fintech and Payment Gateway sectors (Alipay+, PayNet, Visa). Proven track record of managing complex API integrations for global clients (ShopeePay, MoMo, ICBC). Bridges the gap between business requirements and technical implementation, successfully delivering end-to-end payment solutions that drive transaction volume and operational efficiency.

WORK EXPERIENCE

Solutions Architect

Ant International (Beyondsoft)

04/2025 - Present

Driving technical integration for the Alipay+ global cross-border payment network.

Achievements/Tasks

- ▣ **Global Wallet Integration:** Led the end-to-end technical onboarding for major issuers (ShopeePay SEA, MoMo Vietnam) and acquirers (LiquidGroup, Red Dot, ICBC Laos) into the Alipay+ ecosystem.
- ▣ **Solution Design:** Architected scalable payment flows and API specifications, ensuring compliance with cross-border regulatory standards.
- ▣ **Stakeholder Management:** Acted as the primary technical bridge between external partners and internal product/engineering teams, reducing integration lead time by streamlining technical workshops.
- ▣ **Project Leadership:** Managed the full implementation lifecycle, ensuring 100% of assigned partners went live within target timelines through proactive risk management.

Technical Account Manager(TAM)

ISoftStone

08/2024 - 04/2025

Work for AlibabaCloud and support their client(Resort World Sentosa)

Achievements/Tasks

- ▣ **Client Success:** Served as the trusted technical advisor for high-value clients, aligning Alibaba Cloud capabilities with client business objectives to increase adoption.
- ▣ **Requirement Analysis:** Translated complex business needs into technical requirement documents (TRD), leading to enhanced system stability and feature utilization.
- ▣ **Issue Resolution:** Spearheaded critical incident management and technical support, maintaining high SLA compliance and client satisfaction scores.

Software Analyst

Finexus International Sdn. Bhd.

01/2023 - 07/2024

Financial & Banking service provider

Achievements/Tasks

- ▣ **Rapid Development:** Led the backend development of a PayNet payment application, taking the product from concept to "Go-Live" within just 3 weeks.
- ▣ **Security Implementation:** Engineered FIDO2 authentication protocols to enhance user security for banking applications.
- ▣ **Payment Innovation:** Developed Visa Installment Solutions for POS terminals and M1 Bill Payment modules within the e-wallet ecosystem.
- ▣ **Technical Documentation:** Authored detailed Change Request (CR) specifications and technical designs to guide development teams.
- ▣ **Quality Assurance Analyst:** Conducted SIT/UAT for financial applications, identifying critical defects in POS and Web apps before production deployment.
